

**Mid-State
Regional Emergency Medical
Advisory Committee**

**Policy Statement
#18-02**
Adopted 3/20/2018

**Re: Syringe
Epinephrine for Basic
EMT's**

Midstate EMS Agencies wishing to implement a BLS Syringe Epinephrine program must:

1. Make a written request to the Midstate REMAC that includes a signed endorsement of the agency Medical Director.
2. Provide the REMAC with policies, training plan and quality assurance policies.
3. Maintain competencies and education documentation for authorized providers.
4. Submit a copy of the *Medical Director Verification* form (DOH-4362) indicating approval to participate in the syringe epinephrine program.
5. Follow the all requirements of NYS DOH Policy #17-06

The EMS Program Agency will:

1. Submit the application and the following supporting documents to the REMAC at the next scheduled meeting:
2. Provide the EMS agency with the Midstate approval letter
3. Provide the EMS agency with BLS Syringe Epinephrine agreement
4. Maintain copies of all agency documentation in the Midstate EMS agency file.
